LTS LIGHT & LUMINAIRES, a LIGHT-Alliance Company

A manufacturer of award winning professional grade track and track heads, pendants and spotlights. LTS utilizes the latest metal halide, low voltage halogen, line voltage halogen and fluorescent lamps.

Website is under construction - contact Green Light Solutions representative for a catalogue.

LUCCON

A totally new illuminated building material - the 5th element! Luccon is made of fine grained concrete and synthetic fiber material, which is cast in prefabricated molds. Since the portion of synthetic fiber is relatively low and because of its very small diameter, strength and durability of translucent concrete is equal to conventional cement. The almost loss free conduction through optical fibers allow lights, shadows or even colors to be seen through the concrete even with heavy wall.
